

I only buy organic food.

Do you think organic is better than regular food?

Yes. Less pesticides are used to produce it.

But it is very expensive.

I think it is worth it to spend more money for high quality food.

But is organic food really higher quality?

Organic farming is also better for biodiversity and ground water.

I guess some things are better, but it still doesn't change the quality.

I just don't want to eat food that has been treated with regular pesticides.

I understand your point. There is a lot of uncertainty around food production right now.

Exactly. And until we know more about chemical pesticides and fertilizers, I will trust organic food.

I guess it won't hurt to buy organic if you can afford it.
