

Did you hear? There was an oil spill last week from the new pipeline.

Again? I think companies have to do better to protect the environment

I agree. Many pollute the nature around them.

They should not be allowed to pollute the environment.

I don't understand why they can get away with it.

Me neither. They should be responsible for every part of production.

They make a profit while polluting the environment, and the taxpayer has to clean it up.

It makes me sad that all they care about is money.

Me too. All the animals, plants, and even humans will suffer from this oil spill.

But what can we do?

We have to let the company and the government know that we are not happy!

Good idea. I will try to organize a local talk.
