### What is medical German?

Medical German is a quite technical and scientific form of German that will be used by most doctors and nurses. Knowing some key phrases and vocabulary will be very useful when you go to a doctor and will prevent misunderstandings. Don't be afraid to ask too many questions! Doctors usually want to help you ease your mind and to get you back to normal.

### What are the main aspects of going to a German doctor?

A normal visit to the doctor's is normally broken up into stages. The first thing you need to do is make an appointment. You can do this either over the phone or online. When you arrive for your appointment, the first thing you'll have to do is check in at the front desk. This is where you give your name and insurance information. If you head to the doctor's in Germany, make sure you know which insurance they accept. In Germany there is a difference between public and private health insurance, and some doctors only accept patients with private insurance. After you check in, you'll head in for your examination. Afterwards the doctor will suggest some form of treatment or will want to make another appointment with you. Finally, you'll head back to the front desk to either check out or to make your next appointment.
