When is it appropriate to flirt in German-speaking countries?

Flirting can sometimes be a bit tricky. How you flirt and whether it's appropriate to do so, is different depending on your culture and the individual you're speaking to. What might be okay for one person, could be taken wrongly by someone else. So, pay attention to who you're speaking with and whether they feel comfortable or not. Most importantly: be respectful! If someone says they're not interested, then they're not interested.
